We all have different goals with this assignment and so I'm leaving it to you to tell me what that goal is. Please do be reasonable. Some students spent 40 hours on a lab, if you want this assignment to be worth 50% of the lab grade you should be prepared to spend an commensurate amount of time on the assignment.

If you are unsure how to complete this form, just ask.

State the lab grade would you like to improve: _____

State the percentage would you like the grade to improve by: _____ %

Please denote the breakdown of how you would like these points distributed

Autograder: _____ /10 points

Writeup: _____ / 20 points

Interview: _____ / 70 or 90 points

Estimate how much time you spent on the assignment: _____

^ not factored in your grade... but I'm intrigued to see these numbers

e.g.(I did poorly on lab 2 interview and writeup and I created a video on lab 2 material so Ill put)

State the percentage would you like the grade to improve by: 50 %
